TOWNS DISPLAY GRIEF

Interment to Be Made at Mid-
night, Archduke Charles
Representing Emperor.

Metkovich, Herzegovina, June 30.—The bodies of Archduke Francis Ferdinand and his consort, the duchess of Hohenberg, arrived here on a special train at 6 this morning from Sarajevo, Bosnia, accompanied by members of the household.

The town was draped in black, all lamp posts covered with crepe, and flags on buildings at half mast. Guards of honor from the army and navy were drawn up along the platform and behind them gathered local authorities, school children and a dense crowd of citizens. The coffins were removed from the cars by bluejackets, and after prayer by a priest, were conveyed amid the roll of muffled drums and tolling church bells to the royal yacht Dalmat, lying in the river. They were covered with military flags and wreaths, while the yacht itself wore hundreds of floral offerings from military and naval officers and civilians. As the yacht left, the guard of honor fired a general salute.

The vessel was preceded down the river by a torpedo boat. Every village and hamlet along the river Narenta was draped in mourning, and their populations, headed by municipal officials and clergy, assembled along the banks, men and women bearing lighted candles, kneeling while the yacht passed. When the Dalmat reached the mouth of the river it proceeded directly to the battleship Virbes Unitas, waiting to convey the bodies to Trieste. The battleship sailed northward at 9 o'clock.

Interment at Midnight.
The interment will be made at midnight Friday at Artstetten, Lower Austria. The emperor will not attend the services, but will be represented by Archduke Charles Francis Joseph. A requiem mass which will be celebrated in the chapel of the Hofburg Saturday morning will be attended by the emperor and the members of the imperial family. Immediately afterward the emperor will return to Ischl, where he is sojourning when notified of the assassination of Archduke Francis.

The Duke of Teck, accompanied by a small military mission, including a field marshal of the British army, will represent King George at the funeral. A diligent search among the archduke's papers in Belvedere palace, his Vienna residence, has failed to disclose his will. According to one report the will was deposited in a Prague bank. When found, in accordance with the Hapsburg family law, it must be given to the emperor to open.

Future of Nation in Doubt.
The opinion has gained ground in authoritative circles here that the future of Austria-Hungary now, more than ever, depends upon the health of the venerable Emperor Francis Joseph.

It was pointed out in high political circles that if the emperor is permitted to reign only a few years more everything may continue as usual and Archduke Francis Ferdinand's death will have little lasting material effect upon the foreign or domestic affairs of the dual monarchy.

It was argued that should a youthful and inexperienced ruler like the Archduke Charles Francis Joseph suddenly be called on to take the reins of government a period of anxiety might supervene.

The young archduke and his wife, who was Princess Zita of Parma, are both extremely popular among all classes of society and everybody from the emperor down is said to be prepared to do his utmost to help them in every way to rise to the responsible position so suddenly thrust upon them.

Upheaval Not Expected.

The suggestion put forward in some quarters that Archduke Francis Ferdinand's death is likely to cause a political upheaval is said to have little real foundation, as the old emperor has kept the reins of government in his own hands, delegating as little power as possible to his late nephew.

Sarajevo, Bosnia, June 30.—The night passed quietly in this city. Six persons were arrested for slight offenses. Martial law is still in force. Agram, Croatia, June 30.—Denunciation by nationalist Croats of a Catholic and Serbian coalition in connection with the assassination of Archduke Ferdinand and his consort led to a scene of violent tumult with the Croats today and the speaker sus-

NAVY IS READY TO
CLIMB ON WAGONSecretary Daniels' Famous
Prohibition Order Becomes
Effective Tonight.

Washington, D. C., June 30.—Afloat and ashore, today sees the last of the wine mess in the United States navy. Secretary Daniels' famous prohibition order goes into effect at midnight tonight, after which any officer found in possession of alcoholic liquor on board ship or at any naval station is guilty of misconduct. There is only one exception, made in the case of the ship's surgeon, who may keep a limited supply of spirits on hand for medical use only. But admiral or captain is as glibly as the seaman if he keeps a stock of wines and liquors for his own consumption or the refreshment of his guests.

The naval hostess, too, after tonight must give up the punch bowl as a magnet for her guests if the scene of the entertainment be within the naval jurisdiction, as at the naval academy, the naval station and the navy yards. The feature appealed strongly to Secretary Daniels, who believed that many young officers could trace their downfall to over indulgence in punch at these social functions.

At midnight tonight the naval regulations which have heretofore allowed wardroom officers to form a wine mess or club for the purchase and use of wines, will be stricken out, and these stern words will be substituted:

"The use or introduction for drinking purposes of alcoholic liquors on board any naval vessel, or within any navy yard or station, is strictly prohibited, and commanding officers will be directly responsible for the enforcement of this order."

Since announcing this change some time ago Secretary Daniels had encouraged expressions of opinions of his action, but the adverse comment from many officers who held it to be an infringement of their personal liberties, did not go far toward leading the secretary from his firm stand in the matter.

The possibility of modification is said to be a special dispensation which may be granted the exchange of international courtesies, or on such an occasion as the gathering of ships of all nations at the opening of the Panama canal.

The only nation thus far to follow the example set by the United States is Norway whose parliament on June 10 passed a resolution making both the army and the navy messes "dry." This was pleasing to Secretary Daniels, and he believed other nations will come to the support of this theory that alcohol and military efficiency do not mix. The German emperor has lately been insistent upon temperance among the midshipmen, and in Russia whose naval losses in the Japanese war have been charged largely to liquor, the temperance movement has also gained ground.

SUFFRAGE STATE
ISSUE: PRESIDENTTherefore, He Tells Delegation,
He Will Not Support Amend-
ment in Congress.

Washington, D. C., June 30.—President Wilson told a deputation of 500 women suffragists representing organized clubs of women in nearly every state, at the White house today, that woman suffrage was a state issue, not a national one, and for that reason he will not use his influence for the passage of the constitutional amendment in congress.

After answering several questions as to his attitude in respect to other national issues, the president declared: "I cannot permit myself to be cross examined."

MEDIATORS IN RECESS

No Further Conferences at
Niagara Falls Pending Final
Carranza Reply.

Washington, D. C., June 30.—Private dispatches from unofficial sources in Mexico City stated President Huerta had sent his son and daughter toward Puerto, Mexico, preparing for his own departure on short notice. The information was conveyed to the state department.

Niagara Falls, Ont., June 30.—After a conference today between Mediators De Gama, Naon and Suarez, it was announced that mediation would formally recess tomorrow until such time as the constitutional delegates and Huerta delegates could confer informally on Mexico's internal problem. A note from Carranza transmitted through the constitutional agency in Washington reached De Gama today. It asks more time in which to consult his subordinate chiefs and generals before acting on the invitation to participate in informal conferences with the Huerta delegates. It is freely predicted Carranza might wait a month or more.

The decision to recess was reached after reading Carranza's note, which Suarez said was "satisfactory" and sensible in explanation of need of time. It is not believed the mediators will gather again in three weeks.

Electoral Liberty Periled.
Mexico City, June 30.—Acting Foreign Minister Ruiz today gave out a memorandum bearing on the statement of the Mexican delegates to the Niagara Falls conference, and first made public at Niagara Falls June 17. In it he brings out certain passages which were not contained in the statement as issued at Niagara Falls.

The object of the memorandum, it is said, was to combat proposals presented by the American delegates which would be tantamount to reducing electoral liberty in Mexico to a sham, as selections would be held under pressure in favor of Carranza. This, it is argued, would be bad for Mexico and for the United States, as well as for Carranza, as it would cause bad feeling between two peoples, and Carranza always would be regarded as the nominee and subordinate of the American government.

For this reason the Mexican delegates rejected the proposals in question without even consulting their own government, for they could not countenance any arrangement enabling the Washington government to put in a president in Mexico.

Ask Washington for Reason.
The Mexican delegates in the document ask why Washington objects to the establishment of a neutral provisional government, which the Mexican delegates had immediately accepted. The only answer, they say, can be that Washington does not desire electoral liberty in Mexico. Ruiz stated that after the memorandum was reached between the Mexican and American delegates, but it could not be given out because the Mexican government had made some observations on it.

News reached here that Zapata, southern revolutionary leader, had published a decree rejecting allegiance to Carranza. Zapata is said to have declared he will extend operations along the west coast as far as Sonora and fight Carranza "forever."

English Advised to Leave.

In view of the existing conditions in Mexico, Sir Lionel Carden, the British minister, has advised all British subjects temporarily to leave the country. He said that the shortage of fuel used in the operation of trains was growing more acute daily and that the trains probably soon would stop running, which would make difficult the departure of persons in the interior.

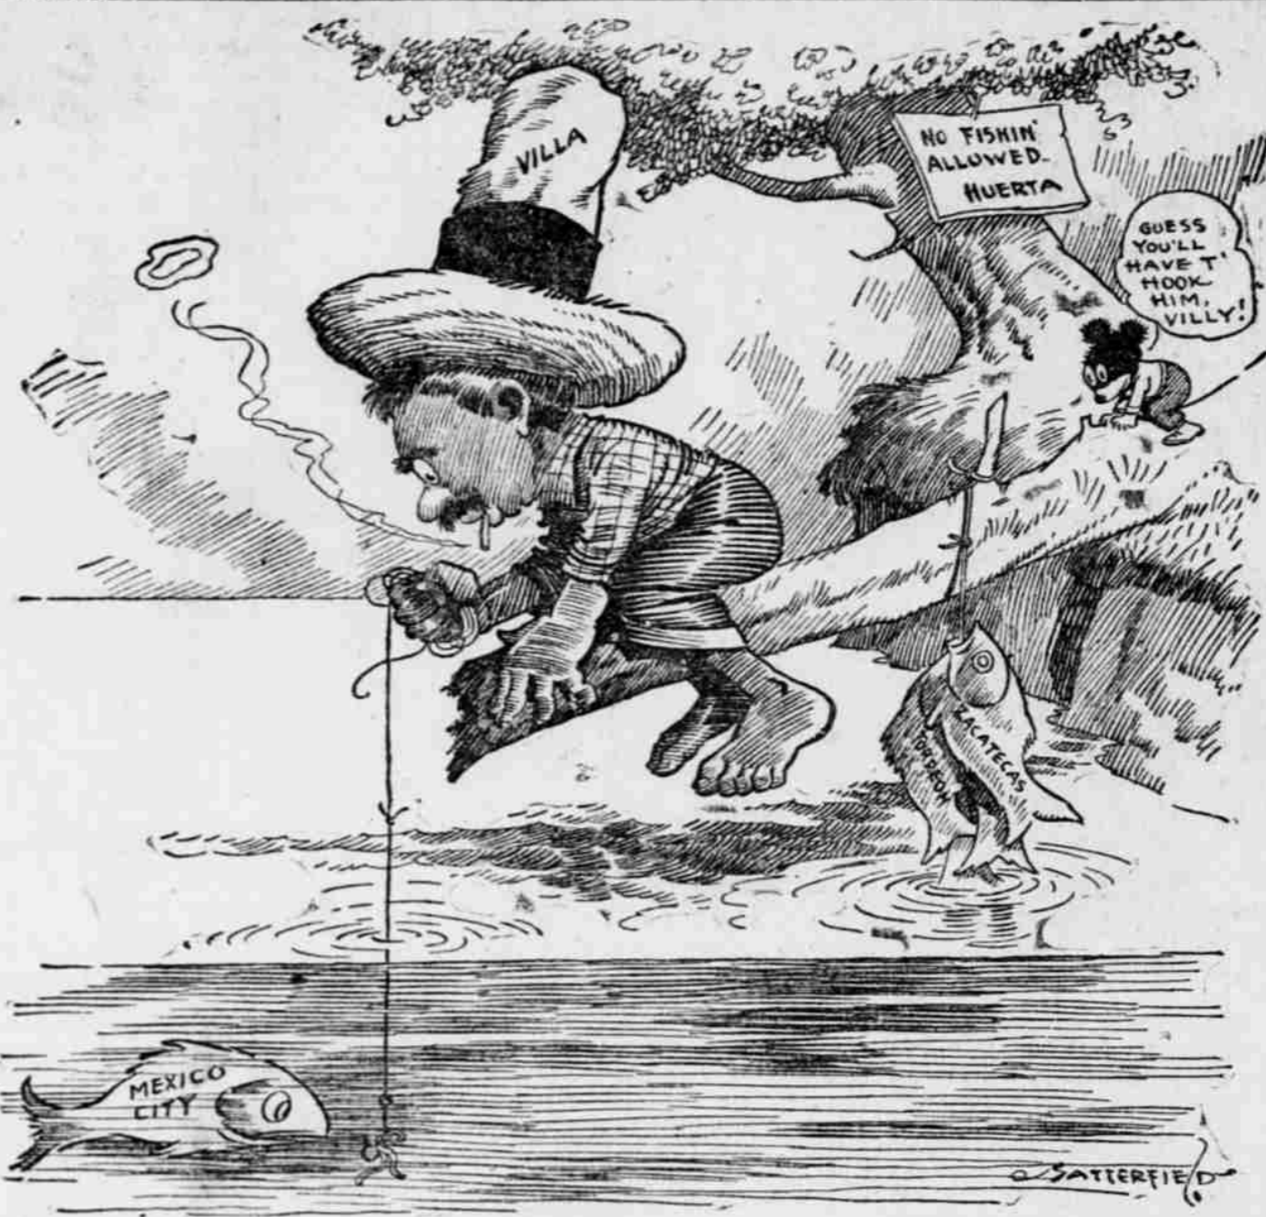

Torreon, Mexico, June 30.—Railroad men brought the information that General Barron, who commanded the federal garrison at Zacatecas, reached Aguas Calientes with only 14 men. Barron was wounded in the thigh. Thirteen thousand federals participated in the battle of Zacatecas. Five thousand were captured and as far as possible to ascertain only 300 escaped.

Robbed of \$1,500 in Elevator.

Buffalo, N. Y., June 30.—Fritz C. Block, treasurer of a brewing company, was robbed of \$1,500 in the elevator of the federal building here yesterday. Three men jostled Block in the elevator and escaped at the third floor.

Albuquerque, N. M., June 30.—Virg Sanders, president of the Decatur Three-Eyes baseball club, is dead here of tuberculosis.

Pittsburgh, Pa., June 30.—Dawn saw state constabulary in complete control of the situation in the strike district. Streets were patrolled by mounted men and people were kept moving. A great crowd of strikers assembled at the Westinghouse entrance to see who would return to work and pickets were active under restrictions laid down by Captain Adams last night.

Butte, Mont., June 30.—Hearing threats had been made against Butte local No. 1, Western Federation of Miners, which expected to hold a meeting tonight, President McDonald of the Butte Mine Workers' union, an independent body, issued a statement requesting his followers not to interfere with any meeting of the federation. The federation's meeting place is kept secret for fear it will be interrupted because of lack of police protection, according to Vice President Hanks, the only official of the union in Butte, the others having fled a week ago.

The Butte Mine Workers' union will also hold a meeting tonight. Houghton, Mich., June 30.—Counsel Hilt of the Western Federation of Miners agreed today to postponement of the trial of President Moyer and others charged with conspiracy and which was to open at L'Anse July 6.

HOLDS KIDNAPING LAW VOID

Louisiana Supreme Court Orders
Release of Convicted Man.

New Orleans, June 30.—The Louisiana supreme court today held the law invalid under which William C. Walters recently was convicted of kidnaping Robert Dunbar. Walters, who had been sentenced to life imprisonment, was ordered released. A South Carolina woman testified the boy was her son, temporarily in Walters' care. Mrs. Dunbar said he was her child, and the court sustained her claim, which resulted in Walters' conviction.

RAISE MAJESTIC WHEN
WATER STAGE IS LOWER

The steamer Majestic, the big excursion craft of the Wishard line, which was sunk in 30 feet of water near St. Louis two weeks ago, may be seen in these waters again next season. Divers who have made an investigation report that it will be possible to raise the boat when the water recedes and hence the late summer may find the steamer afloat once more. Extensive repairs will be necessary, however.

Clerk H. Edgar Wishard on Saturday assumed the role of diver, and upon descending to the cabin of the submerged boat, recovered a large sum of money which was in the office of the boat at the time of the accident.

Geneva, Ill., June 30.—At the Petras murder trial today, Otto Duermeier, porter in a saloon in Aurora, testified that in 1912 Petras threatened to shoot him if he did not cease calling on Theresa Hollander, with whose death Petras is charged.

"I laughed, but did not call on her again," said Duermeier.

DELAYS DECISION
IN RAIL RATE CASERuling on Five Per Cent In-
crease Will Not Be Made
Public Present Week.

Washington, D. C., June 30.—The decision of the Interstate commerce commission on the application of eastern railroads for a five per cent advance in freight rates will not be made public during the present week, as had been expected, according to indications yesterday. The decision may not be announced for at least two weeks. Serious phases of the general questions involved remain to be settled.

It is stated authoritatively that reports during the last week or two, purporting to give the conclusions of the commission in the pending case, are founded only on conjecture and that the commission as yet, actually has reached no final conclusions.

One of the serious conditions which has been encountered is what has been termed the "lopsidedness" of the record of the case as respects certain commodities. For nearly a month testimony was taken as to the reasonableness of the rates on certain commodities. Most of the witnesses maintained either that existing rates were too high or that they were fairly reasonable and everyone protested against an advance on his particular commodity.

Counsel for the railroads submitted very little testimony and in some instances none at all, in rebuttal of this evidence. The result as far as the commission is concerned is that, as to these commodities the record of the case is strongly indicative of the reasonableness of existing rates.

REPULSE HAITIEN REBELS

Government Troops Recapture the
Town of Grande Riviere.

Cape Hatien, Haiti, June 30.—Fighting continued in the north of Haiti today when the Haitian government troops, commanded by President Orestes Zamor, recaptured from the rebels the town of Grande Riviere and continued their march on Quartier Morin. Three attacks by rebels on Port Liberte were repulsed by the government troops in possession of that place. General Dorsillen, one of the rebel leaders, was killed during a fight at Las-salle Mont-Organise.

Topeka, Kan., June 30.—F. D. Coburn, secretary of the state board of agriculture, and widely known as a crop authority, has resigned. He held the position 20 years. He needs a rest.

BUILDER HELD ON
A MURDER CHARGEDignan, Chicago Contractor,
Bound Over for Slaying
Business Agent.

Chicago, Ill., June 30.—Patrick Dignan, teaming contractor, was held to the grand jury at an inquest over the body of George Hammond, business agent of the excavators, graders and asphalt workers union.

Hammond called out the men working on an excavation contract held by Dignan and in an argument Wednesday at the scene of the work, the contractor shot the labor agent three times.

Dignan did not testify at the inquest and the only motive brought out in the testimony was offered by John W. Farley who let part of the contract to Dignan.

"A few days previous to the shooting I talked to Dignan and told him he had better see Hammond and have the strike fixed up," said Farley. "I gave him Hammond's card."

John J. McLaughlin, state representative and president of a building material company, who charged business agents of certain unions with extortion did not appear at the inquest. A federal grand jury will meet July 13 to investigate McLaughlin's charges.

50 FAMILIES IN FLIGHT
WHEN BIG DAM BREAKS

St. Paul, June 30.—The large cofferdam on the government works in the Mississippi river just above Fort Snelling, broke under pressure of high water yesterday afternoon. A section of more than 80 feet was washed out. United States engineers immediately notified the St. Paul police department and a number of automobiles were dispatched along both sides of the river to warn residents of the lowlands.

More than 50 families of a foreign colony living in the lowlands of West St. Paul were driven from their homes by water. Many of them had moved their belongings to higher ground and suffered but little damage.

Government officials expressed the belief that the crest of the flood had passed today. At St. Paul, 12 miles below the dam, the river rose nearly one foot as a result of the break. The fact that much of the flood water backed into the Minnesota river is said to have averted a greater rush of water and perhaps extensive damage.

Preparations for strengthening the remaining 125 feet of the cofferdam were under way today.

RAPP DENIED NEW TRIAL

Judge Sullivan to Be Asked to Enter
Decree by Schumann-Heink.

Chicago, Ill., June 30.—Judge Dennis E. Sullivan of the superior court denied a motion for a new trial yesterday in the divorce case won by Mrs. Ernestine Rapp (Mme. Schumann-Heink) against her husband, William Rapp. Ben M. Smith, attorney for Mr. Rapp, said that he would take an appeal. Attorneys for Mme. Schumann-Heink will appear before Judge Sullivan today and ask that a decree be entered.

RIVER TOWNS WARNED

New Orleans to Build Corral In
Which to Gather Animals
—Iowa Acts.

New Orleans, La., June 30.—The first wholesale campaign in the history of the south for the extermination of rats to prevent the spread of bubonic plague is to be inaugurated today by state and city health authorities. Two cases of the disease were recently discovered in the industrial home of the Volunteers of America here. One man died, another is ill, and 25 inmates are isolated. A concrete barrier will be constructed around an area extending four blocks in every direction from the home and the rats driven to the center. Poison and traps will be used and drain pipes screened to prevent a single rat to escape. Health authorities stated spread of the plague is not expected.

Iowa Board Heeds Notice.

Des Moines, Iowa, June 30.—The Iowa board of health has requested all boards of health along the Mississippi river to take immediate action to exterminate rats and make bacteriological examinations of rats captured, as a result of the warning from Washington that suspected cases of bubonic plague have developed in New Orleans. It is feared plague germs may make their way north on steamers.

Washington, June 30.—Surgeon General Blue of the public health service will go to New Orleans to take charge of the campaign against bubonic plague which has appeared there, with one death and one case.

After receipt of telegrams from Oscar Dowling, president of the Louisiana board of health, the treasury department ordered the surgeon general to take charge of the situation. Dowling reported bacteriological confirmation of two cases. The public health service, however, will make its own examination.

No Danger Says Blue.

Surgeon General Blue said yesterday that neither the city of New Orleans nor the territory surrounding it was in any danger, but that it was advisable that the federal government take sharp means. Apparatus for rat catching and fumigation are being sent to New Orleans, and a corps of experts in plague eradication, including Surgeon Creel of the public health service, will carry out the surgeon general's plans.

As a precautionary measure to prevent the spread of the infection by shipping Surgeon General Blue yesterday sent warnings to health authorities of the Atlantic coast states and to those of the Mississippi river states as far north as Iowa, suggesting that they take up the work of rodent eradication actively.
